*The purpose of the **Mid-Atlantic School Association School Association (MAESA)** is to strengthen the community, enhance the mission and promote the witness of Episcopal schools in the Mid-Atlantic region. We seek to do this by providing opportunities for heads of schools, administrators, and chaplains to meet regularly with colleagues from other Episcopal schools to explore areas of common concern and interest. We also promote programs for teachers and students, which enhance learning in our schools and encourage service to our surrounding communities. Finally, in association with the National Association of Episcopal Schools, we advocate our needs as schools within our several dioceses and within the national Church.*
